matters were discussed. (G) No agreement was reached during the interview regarding the claims.

The general thrust of the discussion was manner for removing the *Zirkel* patent as a reference. The examiner indicated that a statement on the record relating to common ownership of the reference and the present invention, at the time the invention was made, would be acceptable. The examiner indicated that no further submissions would be accepted at this stage because the case is under final rejection, and suggested that the applicants file an RCE and respond to the Office Action in writing along the lines of the foregoing.

In the event that the foregoing record is not considered complete and accurate, the examiner is respectfully requested to bring any incompleteness or inaccuracy to the attention of the undersigned.
